The signatory confirms:

- We are the exporter/buyer/seller of the goods to be declared or act on behalf of the buyer or seller.
- We undertake to assume and pay all duties, charges, and expenses advanced by the authorized representative in connection with customs clearance.

- We provide our authorized representative with all documents required for customs clearance. This includes, in particular, commercial invoices, packing lists, import permits, licenses, and valid proof of origin. To the extent that we hold current authorizations relevant to customs processing, we will submit copies of these in due time prior to clearance.
- The customs tariff number and the description of the goods are stated above. If no customs tariff number is available at the time of the export declaration, the authorized representative is entitled to determine it independently based on the information available. We undertake to provide the authorized representative, without being requested to do so, with any binding tariff information issued to us, whether already available or granted at a later date, and to inform the authorized representative in due time if such binding tariff information ceases to be valid.
- The goods are not dual-use items and are not subject to export licensing requirements; otherwise, we will provide our authorized representative with the necessary licenses in original form in due time.
- Compliance with foreign trade regulations is our responsibility. Existing embargo regulations, prohibitions, and restrictions, as well as other limitations— particularly those arising from customs law and international and/or political measures affecting international trade—have been complied with.
- We assume responsibility for the completeness, accuracy and authenticity of all documents and information that are necessary for the execution of our instructions. The authorized representative is neither obliged to verify nor to supplement these.
- The agent is entitled to grant sub-authorization of this Power of Attorney.
- We agree for the use and storage of our data for the purpose of the agreed contractual activities.
